

Materials Management (MM) Case Study

This case study explains an integrated materials management process in detail and thus fosters a thorough understanding of each process step and underlying SAP functionality.

MOTIVATION

The data entry requirements in the materials management exercises (MM 1 through MM 5) were minimized because much of the data was stored in the SAP system. This stored data, known as master data, simplifies the processing of business transactions.

In the procurement process, we used master data for vendors, materials (products we purchased) to simplify the procurement process.

In this case study, we will create the master data for a new vendor and a new trading good.

PREREQUISITES

Before you use this case study, you should be familiar with navigation in the SAP system.

In order to successfully work through this case study, it is not necessary to have finished the MM exercises (MM 1 through MM 5). However, it is recommended.

NOTES

This case study uses the Global Bike (GBI) data set, which has exclusively been created for SAP UA global curricula.

Process Overview

Learning Objective Understand and perform a purchasing process cycle

Time 140 min

Scenario In order to process a complete purchasing process you will take on different roles within the GBI company, e.g. purchasing agent, warehouse worker, accounting clerk. Overall, you will be working in the Materials Management (MM) and the Financial Accounting (FI) departments.

Employees involved Joyce Hausman (Contract Administrator)

Sandeep Das (Warehouse Supervisor) Sergey Petrov (Warehouse Employee) Wilton Saban (Inventory Supervisor) Alberto Conti (Technical Office

Assistant) Aura Maxwell (Buyer) Tatjana Karsova (Receiving Clerk)

Silvia Cassano (Accounts Payable Specialist)

Shuyuan Chen (Chief Accountant)

Before you start the purchasing process you will create a new vendor (Mid-West Supply) in Lincoln. Then you create a new master record for a trading good (Chain Lock) in the system. After checking the stock (that will be zero) you start the procurement process by creating a purchase requisition. As the buyer, you will create a request for quotation and enter the submitted bids from various vendors – including your new vendor. After evaluating and accepting the quotation of Mid-West Supply you will create a purchase order referencing the RFQ. You will then post the goods receipt and verify the physical receipt into stock. After creating two partial invoices you will post the payments to the vendor and review the G/L accounts.

The graphic below displays the complete process.

Step 1: Create New Supplier

Task Create a new supplier.

Time 10 min

Short Description Use the SAP Fiori Launchpad to create a new supplier (Mid-West Supply).

Name (Position) Joyce Hausman (Contract Administrator)

Suppliers are established in both accounting and purchasing. The vendor master record requires three views – general, accounting, and purchasing in order to be active. Vendors can be created centrally meaning that all views are generated concurrently, or responsibility can be distributed to accounting and purchasing for creating and maintaining their respective views. In this case study, central creation will be used to enter all of the needed data. In this way, this vendor record will contain all of the information necessary to conduct business transactions.

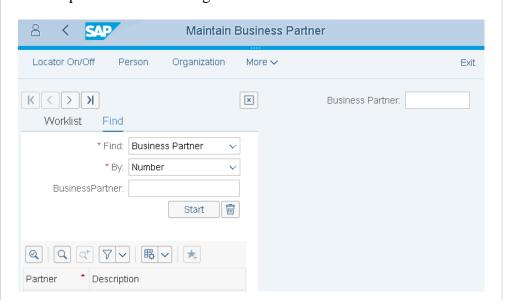

Vendor master

To create a new vendor, use the app Maintain Business Partner.

This will produce the following screen.

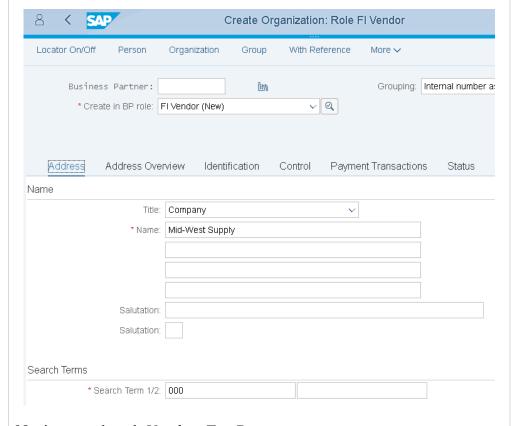

In the Maintain Business Partner screen choose Organization.

In the *Create Organization* choose in the pull-down menu Create in BP role **FI Vendor**.

In the pop-up *Change to another BP role in create mode* click on Create

Select **Company** as Title, enter **Mid-West Supply** as Name, and your number (###) for Search term. As Street enter **335 W Industrial Lake Dr**, as Postal code enter **68528**, and **Lincoln** for City. Further specify **US** (Country) and **NE** (Region). As communication language choose **English**. Compare your entries with the screen shown below.

Company Mid-West Supply ### 335 W Industrial Lake Dr 68528 Lincoln US NE English

Navigate to the tab *Vendor: Tax Data*.

In the Additional Tax Data field group enter **12-3456**### as Tax Number (remember to replace ### with your number). Confirm your entry and click on the button Company Code in the menu bar.

Enter **US00** for company code. Confirm with Enter.

In the tab *Vendor: Account Management* enter **300000** as Reconciliation acct. Then confirm with Enter.

In the tab *Vendor: Payment Transactions* enter **0001** as Terms of Payment and select the checkbox for **Check Double Invoice**.

12-3456###

US00

300000

0001 Check Double Invoice

In the tab *Vendor: Correspondence* enter **your name** as Clerk at vendor.

Your name

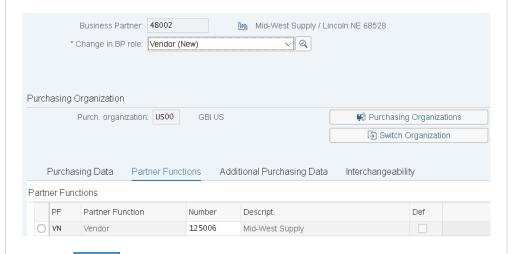

In the dropdown menu *Create in BP role* choose the second **Vendor** of the listed Vendor-options. In the Screen *Change to another BP role in create mode* click on Save

To expand your purchase data information of your newly created partner Mid-West Supply click on Purchasing .

Enter **US00** as Purchasing Organization. Then click on Enter.

Enter **USD** as Order currency and choose with the F4-help **Payable immediately Due net** in Terms of Payment.

Navigate to the tab *Partner Functions* and enter **VN** for the column PF. Press enter.

Click on Save your vendor master record. The system will automatically assign a unique number for your vendor.

Click on the home icon to return to the Fiori Launchpad overview.

US00 USD Payable immediately Due

VN

Step 2: Create Material Master for Trading Goods

Task Create material masters for trading goods.

Time 15 min

Short Description Use the SAP Fiori Launchpad to create a trading good master record for a Chain Lock in the Wholesale distribution channel.

Name (Position) Sandeep Das (Warehouse Supervisor)

To create a trading good material master record, use the app Create Material.

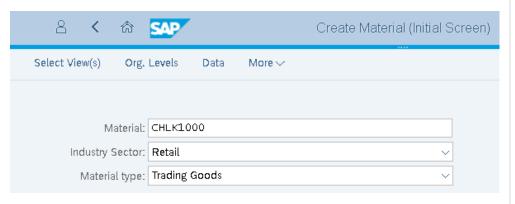

Fiori App

In the Material field, type in **CHLK1###** (replace ### with your number), select **Retail** as an Industry sector and **Trading Goods** as Material type.

CHLK1### Retail Trading Goods

Then, click on Continue or press Enter.

On the next screen, select the following views by clicking on the square in front of the respective rows:

- Basic Data 1 - MRP 1

- Sales: Sales Org. Data 1 - MRP 2

- Sales: Sales Org. Data 2 - MRP 3

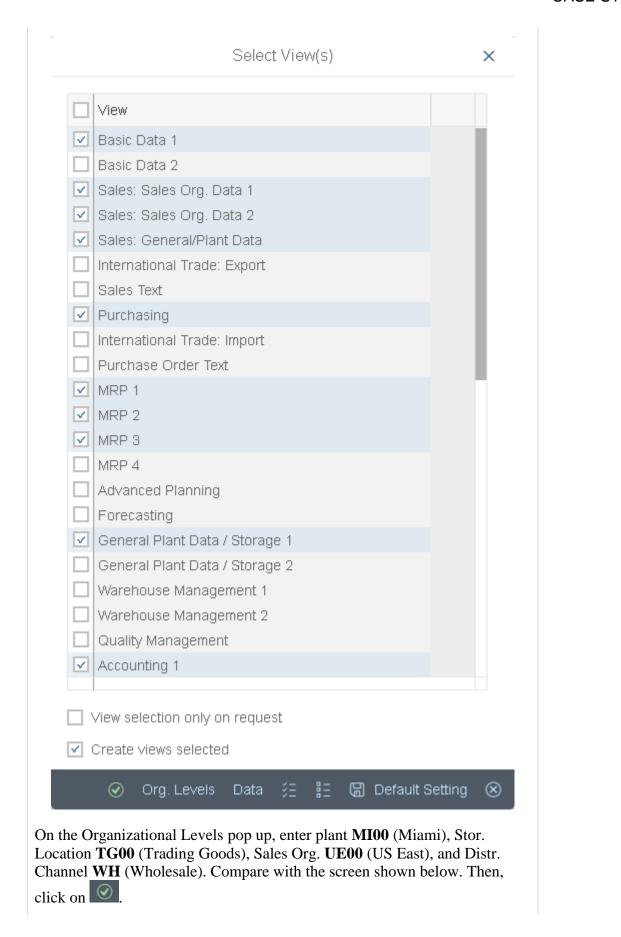

- Sales: General/Plant Data - General Plant Data/Storage 1

- Purchasing - Accounting 1

Also, select Create views selected.

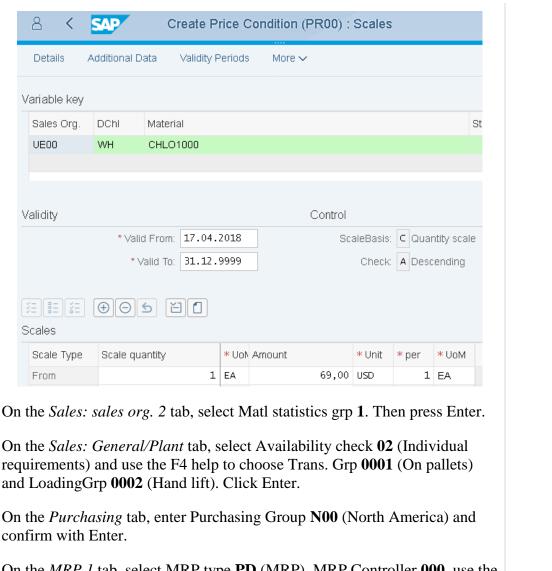

Then, click on

Step 3: Extend Material Master for Trading Goods

Task Extend a material master.

Time 10 min

Short Description Copy the sales views of the new trading good (Chain Lock) from the Miami plant to the San Diego plant to maintain a different condition.

Name (Position) Sergey Petrov (Warehouse Employee)

To create new views for an existing trading good, use the Fiori app *Create Material*.

Fiori App

Enter your material number **CHLK1**### (again, replace ### with your three-digit number) in the Material field. In the Copy from... field group, enter

CHLK1### in the Material field again. Then, press Enter or

CHLK1###

CHLK1###

The system automatically copies the Industry sector and material type. Press again Continue to confirm the message.

In the Select View(s) window, highlight all **three Sales views**, make sure the indicator **Create views selected** is checked, and click on .

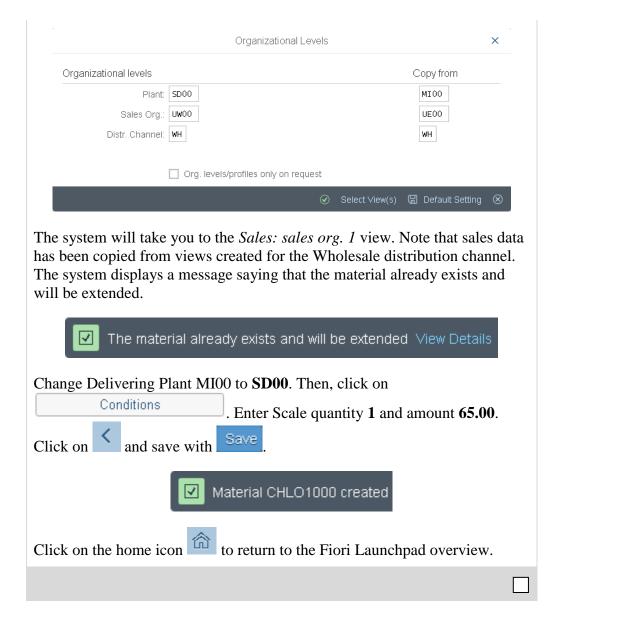

3 Sales views Create views selected

In the *Organizational Levels* window, on the left side (Organizational levels) enter Plant **SD00**, Sales Org. **UW00** and Distr. Channel **WH**. On the right side (Copy from), enter Plant **MI00**, Sales Org. **UE00** and Distr. Channel **WH**. Before pressing Enter, compare your entries with the screen shown below.

SD00 UW00 WH MI00 UE00 WH

SD00

65.00

Step 4: Display Stock/Requirements List

Task Display the stock/requirements list.

Time 10 min

Short Description Display and review the stock/requirements list for your Chain Lock on hand balance and the demand that exists against this product. The report should show that there is no stock and therefore nothing is available for use at this time.

Name (Position) Wilton Saban (Inventory Supervisor)

The stock/requirements list is a dynamic list and, therefore, changes whenever a transaction occurs using the given material.

Stock/requirements list

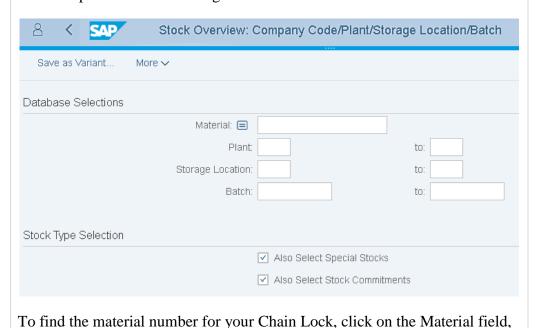

To display the stock/requirements list, use the app *Display Stock Overview*.

Fiori App

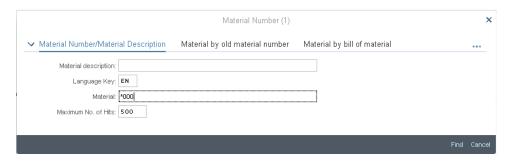

This will produce the following screen.

then click on the search icon $\frac{Q}{Q}$

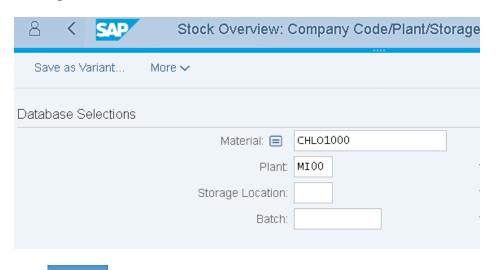

Enter in the Material field your number *###.

Use the Button Find to get the list of materials. Double click on your material to select it.

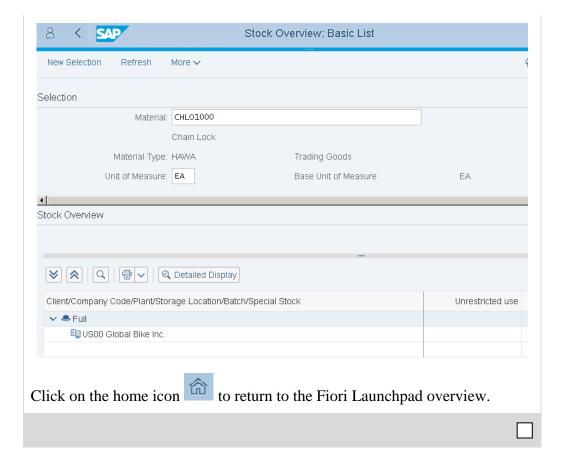

Enter the plant DC Miami (MI00).

Choose Execute to view at the stock level.

Your stock/requirements list should look similar to the screen below.

MIOO

Step 5: Create Purchase Requisition

Task Create a purchase requisition.

Time 5 min

Short Description Sales management has informed the purchasing department of a promotional campaign that will commence in 3 months to introduce the new Chain Locks. Create a purchase requisition for 200 of your locks to request bids so that a vendor can be chosen to fill the expected needs associated with this sales campaign.

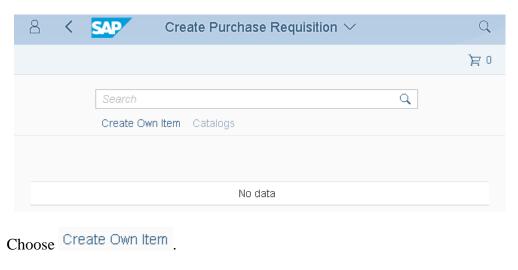

Name (Position) Wilton Saban (Inventory Supervisor)

To create a purchase requisition, use the app Create Purchase Requisition.

Fiori App

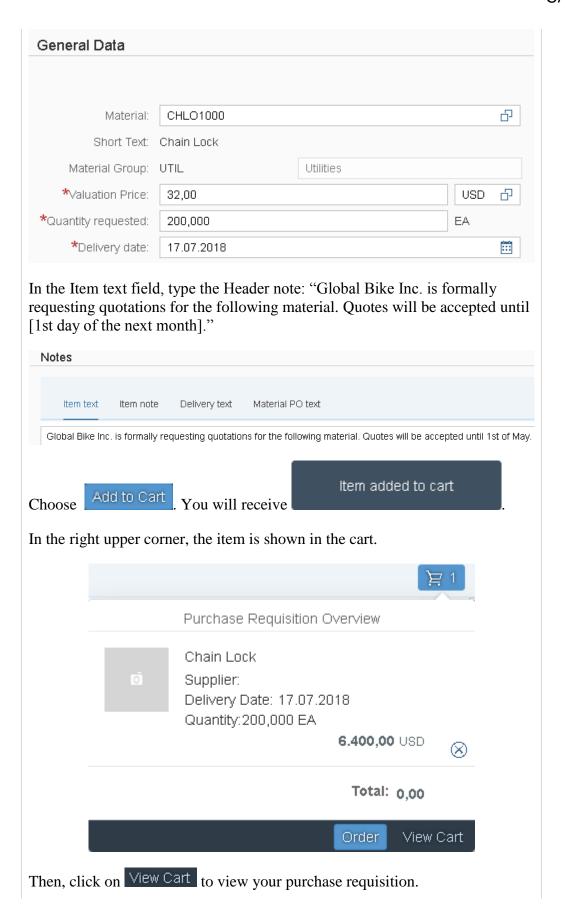

This will produce the following screen.

Enter Material **CHLK1**### (replace ### with your number). For Valuation Price enter **32.00 USD** and Quantity **200**. As Delivery Date select or enter the day **three months from today**.

OK	
Click on the home icon to return to the Fiori Launchpad over	erview.

Step 6: Manage Stock

Task Manage the stock.

Time 5 min

Short Description Display and review the stock/requirements list for your Chain Locks on hand and the demand that exists against this product. Since we just created a purchase requisition for 200 of them, this event should be visible within the stock/requirements list with a date of roughly 3 months from today.

Name (Position) Alberto Conti (Technical Office Assistant)

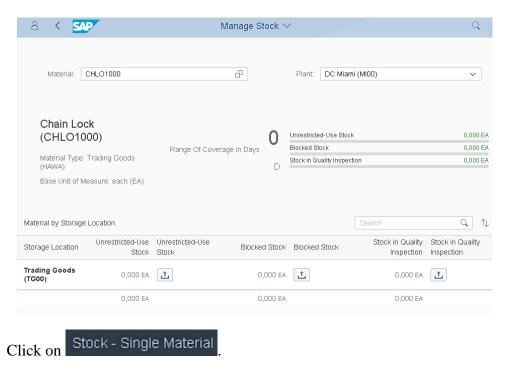

To display the stock/requirements list again, use the app Manage Stock.

Fiori App

If not already defaulted in, choose Plant **MI00** and enter your Material **CHLK1**###. A list shows up under the Material field. Click on your Material **CHLK1**###. Your stock/requirements list should now look similar to the screen below.

MI00 CHLK1###

Step 7: Create Request for Quotation

Task Create a request for quotation for your requisition.

Time 10 min

Short Description Create a separate request for quotation (RFQ) for several vendors. This process will be used to collect the necessary pricing and delivery information that is needed to support the selection of a vendor to supply your Chain Locks.

Name (Position) Alberto Conti (Technical Office Assistant)

To create a request for quotation (RFQ), use the Fiori App *Create Request* for Quotation.

Fiori App

Enter RFQ Type **AN** (**RFQ**), **today in one month** as Quotation Deadline, as Purchasing Organization **US00**, **N00** as Purchasing Group and as Plant **MI00**. Then click on

Step 8: Maintain Quotations from Vendors

Task Maintain quotations from vendors.

Time 5 min

Short Description As we receive responses to our RFQs submitted to vendors, it is necessary to maintain their respective data in our procurement system so that a comparison can be made to support the vendor selection process.

Name (Position) Alberto Conti (Technical Office Assistant)

To maintain quotations from vendors, use the app *Maintain Quotations from Vendors*.

Fiori App

F4

US

###

Mid-West Supply

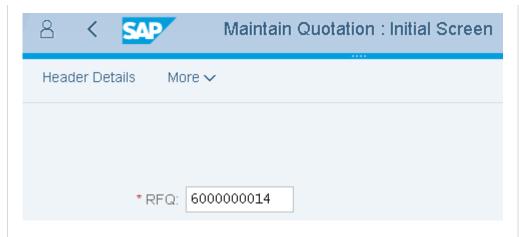

Use the **F4** help in the RFQ field to find and enter the RFQ number from your Mid-West Supply vendor. On the *Purchasing Documents per Supplier* tab, you need to find and select your vendor **Mid-West Supply** first. Position your cursor in the Vendor field and press **F4** again. Start the search after typing in Country **US** and your three-digit number (###) as Search term.

r

Double-click on your new vendor to select it. Now that your vendor number is put in the Vendor field, press Enter or click on to find the first RFQ number you have created in the last task.

Double-click on your RFQ to populate the number into the RFQ field on the *Maintain Quotation: Initial Screen*. Then click on Overview or press Enter.

or press Enter.

In the *Maintain Quotation: Item Overview* screen, enter a net price of **32.00**USD. Click on Select All Items . Then, click on Item Conditions .

32.00

Here, other discounts and surcharges included in the quotation could be specified. In our case, just set the Valid to data to **three months from today**.

3 months from today

8 S	P	Create Gross I	Price Con	idition (l	PB00]) : Condi	tion Supple	ements

Click on to go back to the line item overview. Then, click on save your maintained quotation for your Mid-West Supply vendor. The system acknowledges the changes to your first quotation with a success message.

Repeat this process for the other two RFQs you created. Make sure you use the above-described search criteria to find the vendors for your number (###). Enter the following prices:

Dallas Bike Basics 36.50 USD

Spy Gear 35.00 USD

Make sure you save both RFQs and receive the system success messages.

Click on the home icon to return to the Fiori Launchpad overview.

Dallas Bike Basics 36.50 Spy Gear 35.00

Step 9: Evaluate quotations on price

Task Evaluate quotations on price. Reject two of the three quotations.

Time 5 min

Short Description Generate a comparison list for the prices obtained from each of the vendors. The comparison list ranks the quotations by item from lowest to highest price.

The successful vendor (Mid-West Supply) has been selected using the criteria of lowest bidder. It is now necessary to notify the unsuccessful bidders that their quotation will not be accepted. This is accomplished by flagging those vendors needing to be notified.

Name (Position) Wilton Saban (Inventory Supervisor)

To flag/reject quotations, use the App Evaluate quotations on price.

Fiori App

Enter Purchasing Organization **US00**, and Collective RFQ **RFQ** ###. Select **Mean Value Quotation** and **Determine Effective Price**. Then, select

US00 RFQ ### Mean Value Quotation Determine Effective

to execute the price comparison.

Step 10: Create Purchase Order Referencing an RFQ

Task Create a purchase order with reference to an RFQ.

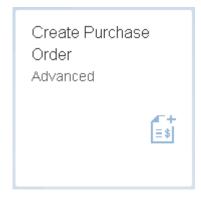

Time 5 min

Short Description Create a PO by referencing the quotation received from the successful vendor. Reference is made to the successful quotation and the details are imported into a new PO.

Name (Position) Aura Maxwell (Buyer)

To create a purchase order, use the app Create Purchase Order - Advanced.

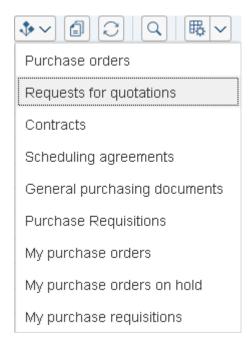

Fiori App

If there is no navigation screen on the left side, click on

Document Overview On . As selection variant choose **Requests for quotations** as shown below.

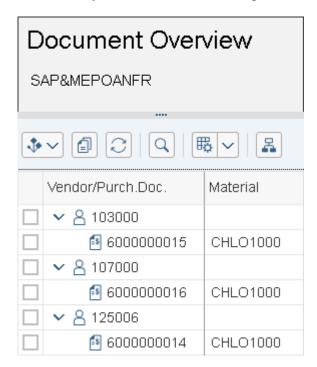

Requests for quotations

In the following screen, in the Material Number field use the **F4** help to find your Chain Lock trading good.

On the *Material by Material Type* tab, select Material Type Trading Goods **HAWA** (HAWA) and enter *### (e.g. *012 if your number is 012) in the Material field. Then, press Enter or click on Find Material Number (1) ▼ Material by Task List Sales Material by Description Material by Material Type Material by Supply Area Material type: Hawa Material Description: Language Key: EN Material: *000 Maximum No. of Hits: 500 Double-click on your Chain Lock (CHLK1###) to select it. When your CHLK1### material number is populated in the Material Number field, make sure that Execute all other search criteria fields are blank and click on This will produce a screen with your three RFQs. Click on [4] (Change Breakdown). If you don't see this Button expand your Document Overview screen. Document Overview SAP&MEPOANER Purch.Doc. 60000000014 60000000015 🙉 60000000016 In the following screen, select **Vendor** in the right table (Column Set) and Vendor to add it to the Sort criteria. Then, select vendor name in the left table (Sort criteria) and click on to display the vendor name first, then the document number. After you have confirmed your changes by clicking on , you will see the names of your vendors in alphabetic order. Click on the right part of the Select Layout icon and choose *Change* layout.... Select Material in the right table (Column Set) and click on Material add it to the displayed columns.

After you have confirmed your changes by clicking on expanding all three folders, you will see the following screen.

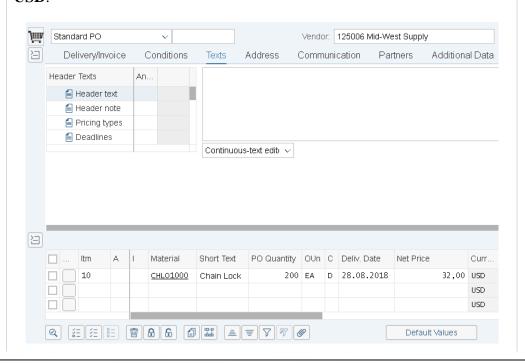

Single-click on the requisition/quotation that you want to reference (**Mid-West Supply**) and select to adopt the information.

Mid-West Supply

Note: If you try and adopt one of the other quotations you will get a message that the quotation item is already rejected.

Verify that the system copied the Material number **CHLK1**###, Quantity **200**, **three months from today** as Deliv. Date, and the Net Price of **32.00 USD**.

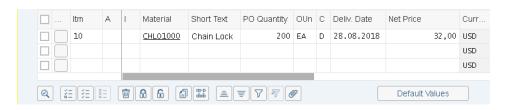

CHLK1### 200 3 months from today 32.00 USD

If the header data is not yet displayed, open the section by clicking on Header. On the *Conditions* tab, record the total value of the purchase order (6,400 USD).

If the line item data is not yet displayed, open the section by clicking on the litem Overview

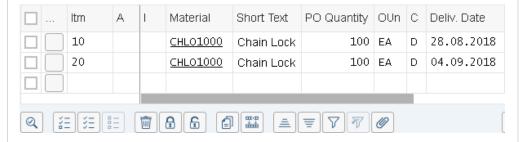

Select the *first line*. Then, click on below the table to perform a schedule line split.

Change the PO Quantity of both items from 200 to **100**. Then change the Delivery Date of the *second line* to **one week after the first delivery**.

If an error message occur, acknowledge it.

Then, press Enter. Verify your item details with the screenshot below.

If the line item data is not yet displayed, open the section by clicking on

Check for both positions on the *Material Data* tab, that **InfoUpdate** is selected.

Then, find the following menu item in the menu bar:

The system will assign a unique purchase order document number.

Standard PO created under the number 4500000034

Clear Balance: 0,00 USD Now, the balance should amount 0,00 USD. to pay your invoice to Mid-West Supply. The system Finally, click on generates a Journal Entry Number for your payment. Journal Entry Number Then click on Display to see your Journal Entry. ✓ Success Journal entry 1500000008 (2018, US00) successfully posted Display Post Next Payment Which bank accounts where used? Try to explain!

Step 21: Display Supplier Balances

Task Display the supplier balances.

Time 5 min

Short Description Display and confirm the activity and associated balance for the Accounts Payable for Mid-West Supply. You should see both a credit and debit posting indicating the receipt of the two invoices and the issuance of a single payment to settle this balance due to Mid-West Supply.

Name (Position) Shuyuan Chen (Chief Accountant)

To display the supplier balances, use the app Display Supplier Balances.

Fiori App

Use the **F4** help in the field Supplier and enter *### into the Search Term.

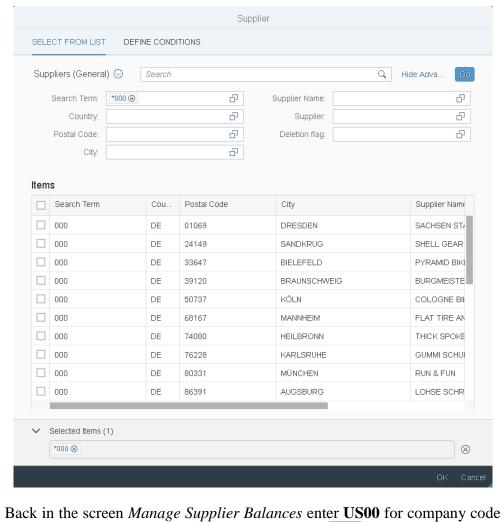

*###

Then press Go

Scroll down to your supplier **Mid-West Supply**, select it and click on

Mid-West Supply

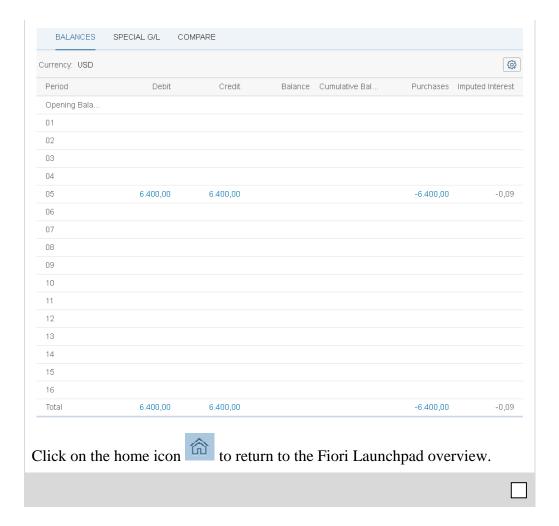

US00 current year

Back in the screen *Manage Supplier Balances* enter **US00** for company code and the **current year** in fiscal year. Then click on Go.

You get the following overview of your supplier balances.

Step 22: Display Purchase Order History

Task Display the purchase order history

Time 5 min

Short Description Review the status of POs for Chain Locks. The PO history tab is updated once a transaction has taken place against the order number.

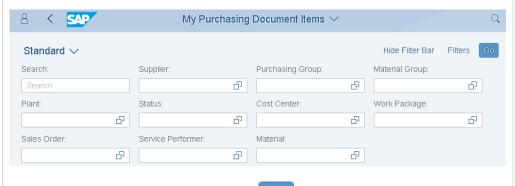

Name (Position) Wilton Saban (Inventory Supervisor)

To display the purchase order history, use the Fiori App *My Purchasing Document Items*.

Fiori App

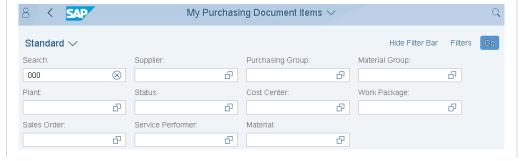

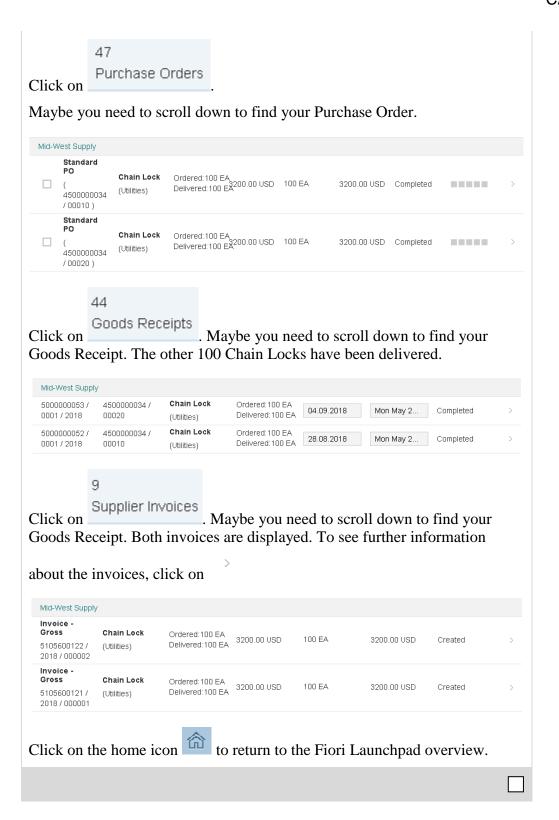

The app provides all information regarding purchase requisitions, purchase orders and good receipts.

Enter ### in the search field and press Go

###

Step 23: Display/Review G/L Account Balances and Individual Line Items

Task Display/review the G/L account balances and the individual line items.

Time 5 min

Short Description Display and confirm by individual account number the activity and associated balances for several accounts in your G/L.

Name (Position) Shuyuan Chen (Chief Accountant)

To display G/L account balances use the Fiori App *Display Financial Statement*.

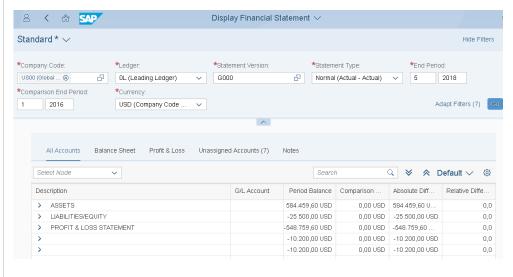

Fiori App

In the screen *Financial Statement* enter **US00** for Company Code, **0L** for Ledger and **G000** for Statement Version. Check if Statement Type is set as **normal**, the **current period** is set for End Period and the Comparison End

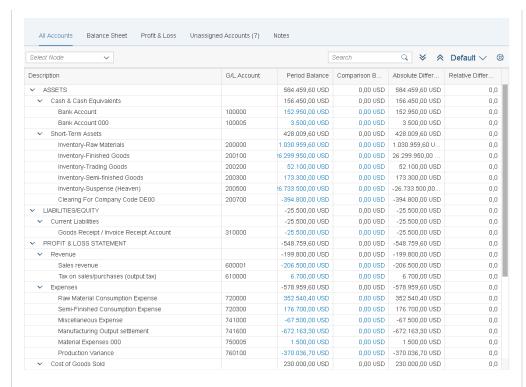

Period is 1/2016. Compare with the screen below and press

US00 0L G000 normal current period 1/2016

Open all subfolders. Which bank account did you use in the previous steps?

With this app you can see all bank accounts of GBI US.

Please consider: All members of this course are booking the same US bank account. Therefore, the number next to the bank account 100000 you used may vary.

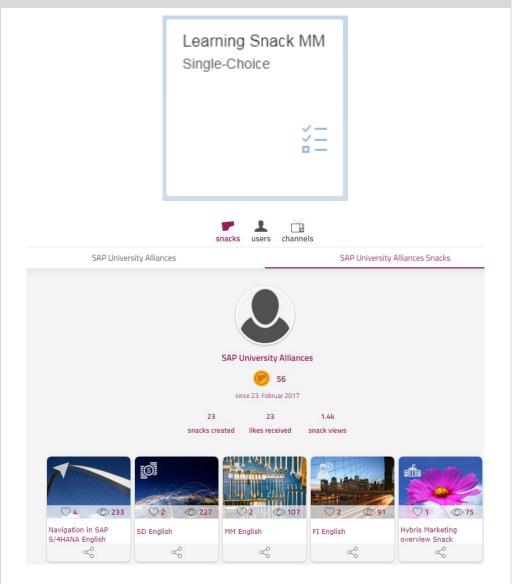

Click on the home icon to return to the Fiori Launchpad overview.

Learning Snacks

In order to test and consolidate your knowledge use the app *Learning Snack MM*.

Fiori App

You see all the snacks for the individual case studies. Select the Snack MM English and answer all seven questions.

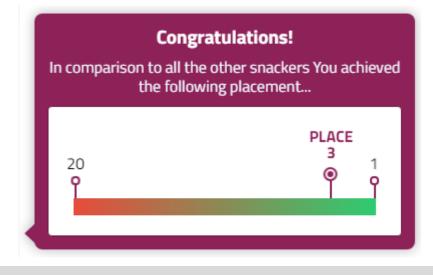

Learning Snack

Hint:

If you do not see any Apps, you need to change the language on the page Learning Snacks. Therefore click on the current language right next to *change language* and choose **English**.

When you have answered all the questions you will receive a success message and your placement.

MM Challenge

Learning objective Understand and perform a Material Management process. **Time** 75 Min

Motivation After you have successfully worked through the material management case study, you should be able to solve the following task on your own.

Scenario A new Security Chain Lock is available on the market and you want to add it to your inventory. This security chain lock has the same characteristics as the created Chain Lock, with a price of 50.00 USD. To create the new Security Chain Lock, use the Chain Lock created previously to Copy from. Select CHLK2### as material number. Based on your inquiry of 300 pieces the Mid-West Supply gives a new offer to the price of 26.00 USD per piece. The Dallas Basic Bike gives an offer of 25.50 USD. Please choose the best offer and order the material. Then pay the delivery.

Advice You can use this case study as guidance since it is based on the same process. However, it is recommended that you solve it without any help in order to test your acquired knowledge.
